PROJECT QUALITY STATEMENT

Our Quality Assurance and Quality Control department is independent from the other departments of the company and is headed by the QA/ QC Manager.

Furthermore, the QA/QC Manager reports directly to the General Manager of the company. It is our belief that the achievement of the Quality requirements is the responsibility of all personnel involved in the project execution not solely that of QA/QC personnel.

Bin Yaqoob is in a process to become an ISO 9001:2008 certified company. The QA/QC Manager has the full authority and support of the project management to implement the requirements of ISO 9001:2008 and other specific project quality plan and procedures.

SAFETY POLICY STATEMENT

It is Bin Yaqoob management policy to provide and maintain a safe and healthy work environment at all times.

Our Goal is to prevent occupational accidents, injuries, illnesses or unnecessary environmental damage. These objectives will be achieved by management who shall place accident prevention and the protection of the health and safety of every employee above any other consideration of job operation or administration. Bin Yaqoob shall promote and enforce the development, dissemination, implementation, effectiveness and

improvement of its Health, Safety and Environmental program. HSE policy shall emphasize that every employee and official of the company is unreservedly committed to achieving our ultimate target, which is ZERO ACCIDENTS, ZERO INCIDENTS, and MINIMUM WASTE.

Objectives of Bin Yaqoob safety programs are: occupational safety standards that must be complied with in compliance with the works related to this Project. unsafe condition and unsafe practices. The success of safety program requires the support and cooperation of every personnel. To achieve accident free work environment it is essential to have complete understanding of safety requirements that are to be practiced in the first place and then apply the proper management and controls to the work to ensure safe work area. Safety encompasses all aspects of risk control involving people, property and equipment. The implementation of such safety measures gives confidence to our clients and general public. Our ultimate goal in issuing this Safety Plan is to reduce exposure of its personnel to hazards thus providing a basis for awareness of safe work practices.

Bin Yaqoob employees and clients benefit from our philosophy –

“Prevention Is Better Than Cure”
